2

3

4

Create an Account and Choose a 3D Model Type

Go to **arsenal.cgtrader.com** Login or create an account. Choose a 3D model type based on your publishing needs to proceed.

Submit Reference Files

Upload images of your product (reference files) and dimensions that accurately and completely represent the item you would like to have modeled. Make sure to provide images of all angles - the more detail the more accurate your 3D model will be!

Request a Quote

Once you have double checked the information provided is accurate, you can **proceed with an estimate request.** A member of the ARsenal team will provide a quote within 24 hours.

Annual denne 4005 Stor 2010 2010 201021	Your quote should arrive within 1 day. You will be able to review the estimate before being charged.	diproducts

Review and Accept Quote

After receiving a quote, you have two options. You can either **accept the quote and pay**, or you can **edit your order** and re-submit for another quote. Once you accept your quote, then your 3D Model will go into production.

5

Quality Assurance

Once a draft is submitted by the designer, CGTrader will review the model through a quality assurance process.

6

Your Model is Ready for Publishing!

Once you are happy with your 3D model, submit it for a final automated optimization process. Once it is ready, you can **download it directly from the digital asset management platform** (DAM) and in any file type you need.

Then you are ready to publish!

Ready to order your 3D model? **Click here to get started.**
